*** Terms and Conditions for Purchasing the Futurity Breeding ~ Please read carefully!

Almost every futurity has different terms for sale of the breeding for their association. All require a breeding fee paid to the Association and costs of the breeding paid to the farm where the stallion stands. Please take time to find out exactly what to expect in costs. When we submit a breeding fee for **INDIAN ARTIFACTS**, we subtract from his published fee the inherent costs that make up his breeding fee. The purchaser will owe a Booking Fee and be responsible for Shipping Fees or Farm Charges to DeGraff Stables. These amounts however, are deducted from the published fee, then the calculation by the Association as to the percent of the stud fee plus any office charges that may apply is figured; resulting in your amount to pay the association. Shipping and chute fees are paid separate to DeGraff Stables. All in all, DeGraff Stables is pleased to provide the mare owner with a substantial discount for their breeding donation that supports the association and promotes the foals of **INDIAN ARTIFACTS**.
